## charging your headset

The headset contains a rechargeable Li-ion polymer battery. Prior to using the headset for the first time, it is strongly recommended to fully charge the battery for 3 hours.

Connect the USB cable to your PS3™ [01] and the mini usb [02] to the headset's charging socket [03]. **The LED will illuminate green during the charging process** and will be off when fully charged. NOTE: Charging indication will be delayed for a few minutes if the headset has not been used for a long time.

### charging time

Normally the battery is fully recharged within 3 hours. As soon as the battery is fully charged, the LED will be off or a weak Green. Disconnect the USB cable from the PS3™ and the headset.

### game time

The fully charged battery offers up to 4 hours continuous use. It is advisable to always recharge after lengthy gameplay so the headset is fully charged for the next round.

Do not try to pair the headset to the console, when the headset is charging. If it is charging, it will not pair to the PS3™.

## operating your headset

1. To power on your headset, press and hold the power button for 1 second until the LED flashes Blue.  
**NOTE: If the LED flashes Green only, the battery will need to be charged.**
2. To fit your headset comfortably, lift the earhook and loop it around your ear. Position the speaker in your ear for optimal audio performance.
3. To power off your headset, press and hold the power button for 3 seconds until the LED flashes Green.

### adjusting volume

Tap the + button to increase the volume in increments until the headset reaches your desired volume level.

Tap the - button to decrease the volume in increments until the headset reaches your desired volume level.

### muting

Press the power button briefly (less than 1 second) repeat the process to un-mute.

To reconnect the headset to your PS3™ at any time, press the power button.

## troubleshooting

Having trouble with your EX-01 Bluetooth® Headset? These troubleshooting steps will show you the smoothest path to resolving your issue. Be sure to perform troubleshooting before having your product serviced.

### The PS3™ is unable find the headset.

- Make sure that your headset is in pairing mode (see page 4).
- If the headset has been paired with another Bluetooth® device before, the PS3™ will have trouble finding the headset. Either remove the headset from the paired device or turn off the Bluetooth® functionality on the paired device.
- Turn off / remove any other active wireless devices in the vicinity (eg. router, mouse, keyboard, DECT phones) to prevent signal interference.

### The headset will not activate after being charged.

- To activate the headset, the battery needs to charge for at least 40 minutes. It is highly recommended to fully charge the battery for the full 3 hours before use.
- The headset will only charge when the PS3™ is switched on.

### No indication of charging is shown.

- Charging indication may be delayed for a few minutes if the headset has not been used for a long time (more than a month) or if the battery is drained.

### No sound can be heard from the Headset.

- Make sure that your headset has been activated in Audio Device Settings and that your volume is set correctly (refer to page 5).
- Make sure that the paired devices are within 30 Ft (9.15 metres) of each other.
- Make sure that the headset is turned on and fully charged.
- Check In-game settings.
